On The Firing-Line In National

'As June 7 approaches the thunder of the big guns on the national firing-line echoes from New York and Chicago far out to Hawaii. The outcome of the Republican convention is still "in the lap of the gods," and that has stimulated local discussion enormously.

Where will Pennsy:vania stand? That is always an anxious question for the political veterans, for this is a Keystone State in politics quite as much as in nick-

Pennsylvania's election of delegates and delegates at-large was held on May 17. Senator Boies Penrose the old fox of Republican politics in this state, put one ticket into the field and Governor Brumbaugh put another. Penrose won 45 delegates and Brumbaugh 31, the Brumbaugh ticket getting nine of the twelve delegates-at-large. Governor Brumbaugh led the field, a personal triumph for him over Penrose, but the latter make the purse," the editorial now remarks ingenucontrols both the delegation and the state committee. He will be national committeeman. Thus in general the Pennsylvania election was a victory for the Pen- Hawaii Polo and Racing Club:

What this means in the national contest is not yet entirely clear. As early as April 7 last, Alexander P. Moore, the Pittsburg editor, declared that Penrose would ultimately be found working for Roosevelt. He also said that Former Secretary of State Knox would e found in the Roosevelt camp. If this is true, Penn-Ivania will be a power for the Colonel, although the legation is not bound by the unit rule. Moore prected that Roosevelt would have at least 40 Pennsylmia delegates on the first ballot.

The reason is said to be that is health is permanently impaired, which may explain e rapidity with which this energetic figure has faded to the background.

Knox is admittedly an able man but even his friends not credit him with nation-wide popularity, and graphically, his election would be unfortunate. Preal candidates are usually picked from "pivotal Republicanism is so strongly in the ascendn Pennsylvania that this is not a pivotal state.

It is surprising to find the Advertiser defending race-track betting and still more surprising to find in its editorial columns the following naive comment:

Now, if running a horse race for a cash stake is gambling, so is playing baseball for a percentage of the gate or rowing a boat race for silver medals. Does our contemporary contend that the various baseball players of the various leagues should be haled into court and fined, or that the Healanis and the Myrtles should be estopped from further regattas? If it will just consider a moment it will be able to detect the wide difference between race track betting and competing for a purse, whoever puts the purse up.

If the writer of the above innocent comment does not know the difference between putting up bets and putting up purses, prizes or medals, the Advertiser's sporting reporter is better informed. Yesterday the roads of the Pacific" in something Whilst he was working in the harvest sporting page told how a race was run the day before at Kapiolani Park, gave the names of the horses, the across the Pacific would naturally do the work on their own little farm. names of the owners and said, "The stakes were \$100 a avoid Honoluly, and demonstrated

> The other day a Japanese push-cart man was found on the waterfront in a state of collapse, victim of tuberculosis in an advanced stage. It was then learned that for months this man had been selling candy and other wares along the streets, principally to children. Whether his disease has been communicated to his patrons no one can with certainty say, but there is more than a possibility of it. The city should furnish better protection for its children than this.
